EDUCATION INTELLIGENCE PRESENTS

THINK FIRST. AI IN ACTION IN THINKING CLASSROOMS

5 things that *haunt* teachers about AI

Five educators faced them. On 12 November, they'll show you what they did next.

For educators. By educators.

Free on Zoom. 12 November.

Swipe to see them →

FEAR 1 OF 5 · THINK FIRST.

01

The Ghostwriter

“My students will just let AI write everything.”

FACED BY

A High School English Teacher

Sharjah, UAE

What she did next: 12 November →

FEAR 2 OF 5 · THINK FIRST.

02

The Unheard Voices

“I can’t hear every student talk through their ideas before they write.”

FACED BY

A Secondary School Teacher

Melaka, Malaysia

What she did next: 12 November →

FEAR 3 OF 5 · THINK FIRST.

03

The Unknown

“Can we teach AI literacy without touching devices?”

FACED BY

A Head of Innovation & Artificial Intelligence

Abu Dhabi, UAE

What he did next: 12 November →

04

The Fear of Failing

“My learners would rather let AI be right than risk getting it wrong.”

FACED BY

A University Lecturer, Learning & Development

Singapore

What he did next: 12 November →

FEAR 5 OF 5 · THINK FIRST.

05

The Answer Machine

“AI gives answers. I need my students to reason.”

FACED BY

A Co-Founder of a Maths Learning Centre

Singapore

What she did next: 12 November →

THINK FIRST. · 12 NOVEMBER
